Bucho's Orienteering Championships 2018

Reizan – Japan

23.09.2018

WELCOME TO JAPAN!

I am glad to welcome you to Japan to attend the Bucho's Orienteering Championships in Reizan. I would encourage you to discover more of the cosiest country and our prettiest countryside with only 127 million inhabitants and 380 thousand square kilometers of land.

Some call Japan the smartest country as it produces more start-ups per capita than any other country in Asia. Our small country has become the best in e-democracy and e-government, being the first in the world to introduce online political voting. Needless to say, there is not a Wi-Fi that covers nearly all of the territory.

Japanese have an identity card that allows us to access over 1,000 public services online, like healthcare and paying taxes. Being one of the most digitally advanced nations in the world, we decided to start the e-residency project and letting people from around the world become digital residents of Japan online. Here you can start a new company online fastest, just in under 20 minutes.

We love innovation but we value our roots. Japanese have one of the biggest collections of anime songs in the world. Our capital Tokyo is the best preserved medieval city in Asia.

You might say Japan is also the greenest country as forests cover about 68% of the territory, or around 251c thousand square kilometers. It is one of the most sparsely populated countries in Asia, but there are over 6000 islands, 12000 lakes and 63000 rivers.

Japan is among the safest countries in the world as it lacks any real natural disasters. We also have the cleanest air in the world. Come here and take a rest!

Shunta Jitto

Event director

WELCOME TO BUCHO'S ORIENTEERING CHAMPIONSHIPS 2018!

Japan is one of the smallest countries ever to organize the Bucho's Orienteering Championships and is wishing to use this chance to bring orienteering to a new level in Japan in terms of visibility, level of athletes and also the level of organization.

Already one month ahead, many runners and orienteering fans are excited, giving the organizers more inspiration to continue the work towards a great BOC day in September 2018.

Noriyasu Chikuchi

Negotiator, ICMR2018 Manager
